To Whom It May Concern:

As the Chief Rabbi of Poland I strongly support the idea of building the Jewish Senior Home in Warsaw.

There is a strong need for senior Jews living in Poland to have the opportunity to live their days in decent conditions with respect to their religious and cultural identity.

Project to create a Jewish home is a continuation of strong tradition interrupted by World War II. Initiative of the Association for the Jewish Senior Residence is a great value for the Jewish community in Poland.

Regards,

Michael Schudrich
Rabbi
